

Approved Non- Contract Formulas

Infant Formula means all brands of infant formulas that are not covered by a cost containment contract. It does not generate a rebate, and requires medical documentation for its issuance.

Enfamil AR Lipil
Enfamil Gentlease Lipil
Good Start Soy Plus
Good Start Gentle Plus

Exempt Infant Formulas are intended for infants who have inborn errors of metabolism, low birth weight, or who otherwise have unusual medical or dietary problems.

Elecare
Enfacare Lipil
Enfamil Nutramigen Lipil w/Enflora
Neocate Infant Formula
Similac Neosure
Similac Alimentum

Medical Foods are certain enteral products specifically formulated to provide nutritional support for individuals with a diagnosed medical condition when the use of conventional foods is precluded, restricted, or inadequate. They may be nutritionally complete or incomplete, but they must serve the purpose of a food, provide a source of calories and one or more nutrients, and be designed for enteral digestion via an oral or tube feeding.

Carnation Instant Breakfast
Ensure
Ensure with Fiber
Neocate Junior
Pediasure
Pediasure with Fiber

For Children Over One Year of Age the following formulas can be provided with documented medical need through an approved ENPR.

Similac Advance Early Shield Similac Go and Grow Soy
Isomil Advance Soy
Similac Sensitive
